TRADING UPDATE

The Equity Listings Requirements of the Botswana Stock Exchange ("BSE") mandate issuers to announce, through the BSE and the press, any variation in their expected Earnings Per Share ("EPS") exceeding 10% compared to the previous corresponding period.

The Board announces that the Group's interim earnings per share (EPS) for the half-year ended 30 September 2025 is projected to improve by approximately 70% to 90% compared to the EPS of negative 0.71 US cents reported for the prior period ended 30 September 2024. The interim EPS is expected to range between negative 0.07 and negative 0.21 US cents.

The anticipated improvement in earnings per share (EPS) is primarily attributable to stronger cash generation, enhanced treasury optimisation, and improved credit risk management.

Investors are therefore advised to exercise caution when dealing in the securities of Seed Co International Limited.

Please note that the financial information underlying this Trading Update has not been reviewed or audited by the Independent Auditors of Seed Co International Limited.
